Mission Statement

HARVEST HOUSES seek to establish residences that are alternatives for independent seniors to live together in a community atmosphere. Within the context of this atmosphere we seek to create a supportive environment. Such an environment has the potential for each resident's continued growth in independence while fostering the inter-dependence of mutual responsibility.

Each individual living in a residence is provided with nutritional meals, social and recreational services, and an environment that emphasizes wellness and harmony.

We believe in the Gift of Life and that later life is particularly significant to the whole of life and can be the most fulfilling years to reap the harvest.
